PROFESSIONAL SUMMARY

Business Analyst specialized in multi-scenario financial modeling and performance management. Accustomed to transforming raw data into strategic decision-making tools (ROI, CAPEX, OPEX, TCO). Results-oriented, I combine analytical rigor with mastery of BI tools to automate reporting and optimize management investments.

PROFESSIONAL EXPERIENCE

Business Analyst – Financial Performance (Internship) | SAN MAROC | Feb. 2026 – Aug. 2026
Casablanca, Morocco / France (Remote)

- **Evaluated** the performance of client portfolios in a market of 97.9 billion MAD in non-performing loans (segmentation by aging and probability of recovery).
- **Designed** and deployed Excel-based decision-support dashboards to monitor strategic KPIs (DSO, CEI, recovery rate).
- **Automated** financial reporting processes using VBA and Power Query, generating a production time reduction of 2 hours per weekly cycle.
- **Formulated** operational recommendations directly to senior management within a remote collaboration framework.

Business Analyst – Performance & KPIs (Internship) | 2ACOM | May 2025 – Jul. 2025
Casablanca, Morocco

- **Structured** an operational performance monitoring system covering 5 distinct market zones.
- **Developed** an exclusive Potential Profitability Index (PPI) integrating over 15 multi-criteria analysis variables.
- **Built** a 5-year forward-looking financial model (ROI, CAPEX, OPEX, TCO) and conducted multi-scenario analyses to prioritize management investments.

Analysis & Reporting – Client Portfolios & Risk (Internship) | MAGHREBAIL | Jul. 2024 – Aug. 2024
Casablanca, Morocco

- **Analyzed** risk exposure and financial performance across a scope of over 20 client portfolios.
- **Standardized** internal reporting processes to improve data reliability and optimize the analytical tracking of client commitments.

QUANTITATIVE PROJECT — INVESTMENT MODEL & DATA ANALYTICS

Investment Modeling & Spatial Analysis (Graduation Project) | *Casablanca*

- **Modeled** a 5-year comparative business case to evaluate the profitability of digital out-of-home (DOOH) advertising versus static formats (OOH), integrating CAPEX, OPEX, and TCO.
- **Demonstrated** the financial superiority of the digital model with a projected ROI reaching 533% and an estimated break-even point of 5 weeks (optimistic scenario).
- **Cross-analyzed** complex data using geospatial analysis (QGIS), road traffic simulation (SUMO), and socio-economic indicators.

EDUCATION

INSEEC Lyon
Master of Science Procurement & Supply Chain Management
Oct. 2025 – Oct. 2027

Université Internationale de Casablanca
Bachelor's degree in management, Finance & Accounting
Sept. 2022 – Jul. 2025 | High Honors
