EL GHALI SANY

SEEKING APPRENTICESHIP: BUSINESS ANALYST / FINANCIAL PERFORMANCE (Sept. 2026)

Email : sanyghali@gmail.com | Phone : +33 7 81 95 70 70 | LinkedIn : El Ghali Sany | Portfolio : el2545.github.io/portfolio

PROFILE

Business Analyst specialized in multi-scenario financial modeling and performance management. Designs investment models (ROI, CAPEX, OPEX, TCO) and decision-support dashboards. **Currently studying for an MSc at INSEEC Lyon**, seeking an apprenticeship in Performance Management, Analytical Finance, or Supply Chain Analytics starting September 2026.

EXPÉRIENCES PROFESSIONNELLES

Business Analyst – Financial Performance (Internship) | SAN MAROC | February 2026 – August 2026
Casablanca, Morocco / France (Remote)

- **Financial analysis:** Analyzed client portfolios (outstanding balances, overdue payments, collections) to identify performance gaps.
- **Business Intelligence:** Designed decision-support dashboards in Excel to monitor financial indicators.
- **Process optimization:** Automated financial reporting, reducing production time by 2 hours per weekly reporting cycle.
- **Organization & autonomy:** Remote collaboration with management and weekly validation of deliverables.

Business Analyst – Performance & KPIs (Internship) | 2ACOM | May 2025 – July 2025
Casablanca, Morocco

- **KPI development:** Structured a performance monitoring system covering 5 market zones and developed a Potential Profitability Index integrating 15+ variables.
- **Strategic modeling:** Built a 5-year forward-looking financial model (ROI, CAPEX, OPEX, TCO).
- **Decision support:** Conducted multi-scenario analyses to prioritize management investment decisions.

Analysis & Reporting – Client Portfolios & Risk (Internship) | MAGHREBAIL | Juillet 2024 – Août 2024
Casablanca, Morocco

- **Risk analysis:** Assessed financial performance and risk exposure across 20+ client portfolios.
- **Data management:** Standardized reporting processes to improve internal data reliability.
- **Performance monitoring:** Contributed to analytical tracking of client commitments.

QUANTITATIVE PROJECT — INVESTMENT MODEL & DATA ANALYTICS

Financial Profitability Evaluation of Advertising Media – Case of Casablanca

- **Data processing:** Developed a multi-variable model integrating road traffic simulation (SUMO), geospatial analysis (QGIS), and socio-economic indicators.
- **Financial projections:** Built a 5-year comparative financial model (CAPEX, OPEX, TCO, projected cash flows).
- **Measured impact:** Demonstrated the financial superiority of digital displays (DOOH) over static formats, generating a projected ROI reaching 533% over a 5-year horizon.
